**RE: Groundwater Discharge Plan - Permit Application for a Discharge Permit
Proof of Notice
HollyFrontier Navajo Refining LLC**

Dear Ms. Barr:

HollyFrontier Navajo Refining LLC (Navajo) hereby submits the following and enclosed proof of public notice for the submittal of a Groundwater Discharge Plan and its application for a Discharge Permit for the Navajo Refinery in Lovington, New Mexico, in accordance with 20.6.2.3108.B New Mexico Administrative Code (NMAC) and 20.6.2.3108.D NMAC:

- (1) Attachment 1: Affidavit of Postings with Exhibit "A" (20.6.2.3108.B(1) NMAC);
- (2) Attachment 2: Affidavit of Mailings and Certified Mail Receipts for Property Owners with Exhibits "A" and "B" (20.6.2.3108.B(2) NMAC); and
- (3) Attachment 3: Publisher's Affidavit of Publication of a synopsis of the public notice in the *Hobbs News-Sun* (20.6.2.3108.B(4) NMAC).

If you have any questions or comments, please contact Kawika Tupou at (575) 746-5487 or Kawika.Tupou@HollyFrontier.com.

Sincerely,

Parrish Miller
Vice President and Refinery Manager
HollyFrontier Navajo Refining LLC

cc. Mike Holder, HFC

Notice of Permit Application

On March 31, 2022, the HollyFrontier Navajo Refining LLC (Navajo), Lovington, New Mexico (NM), Refinery (the Refinery), submitted a Groundwater Discharge Plan to the New Mexico Energy, Minerals & Natural Resources Department Oil Conservation Division (OCD) as the application for a Discharge Permit (the Discharge Permit Application). This Discharge Permit Application provides information on current Refinery operations and potential (unintentional) discharges at the Refinery. As specified in 20.6.2.3108(B) New Mexico Administrative Code (NMAC), the Refinery is posting this public notice of discharge permit application in a newspaper to inform the general public. This public notice includes the information required by 20.6.2.3108(F) NMAC.

The Refinery is a crude/vacuum distillation facility that processes crude oil into intermediate products that are transported to the Navajo Artesia Refinery by means of intermediate pipelines owned by Holly Energy Partners (HEP). The Refinery is located at 7406 South Main Street in the City of Lovington, Lea County, NM, 88260 in Section 15, Township 16 South, Range 36 East, New Mexico Principal Meridian (NMPM), Lea County. The Refinery is a crude/vacuum distillation facility that processes crude oil into intermediate products that are transported to the Navajo Artesia Refinery by means of intermediate pipelines to be later upgraded into finished products. The Refinery has a storage capacity of 1,042,856 barrels/day, with an average daily throughput of approximately 70,000 barrels/day.

Ground water that may be affected by a potential (unintentional) discharge at the Refinery occurs at a depth of approximately 100 feet below ground surface with a total dissolved solids concentration of approximately 1,440 milligrams per liter (mg/L).

Comments, questions, and requests for a copy of the application (either a paper copy or an electronic copy via the internet) should be sent to the following OCD contact:

The OCD will accept comments and statements of interest regarding this application and will create a facility-specific mailing list for persons wishing to receive future notices.

AVISO DE SOLICITUD DE PERMISO

El día 31 de marzo de 2022, HollyFrontier Navajo Refining LLC (Navajo), Lovington, Nuevo México (NM), refinería (la refinería), presentó un Plan de Descarga de Agua Subterránea a la División de Conservación de Petróleo (OCD) del Departamento de Energía, Minerales y Recursos Naturales de Nuevo México como solicitud para un Permiso de Descarga (la Solicitud de Permiso de Descarga). Esta Solicitud de Permiso de Descarga proporciona información sobre las operaciones actuales de la Refinería y las posibles descargas (no intencionales) en la Refinería. Como se especifica en 20.6.2.3108(B) del Código Administrativo de Nuevo México New Mexico Administrative Code [NMAC]), la refinería publica este aviso público de solicitud de permiso de descarga en un periódico para informar al público en general. Este aviso público incluye la información requerida por 20.6.2.3108(F) NMAC.

La Refinería es una instalación de destilación al vacío/crudo que procesa el petróleo crudo en productos intermedios que se transportan a la Refinería Navajo Artesia por medio de oleoductos intermedios propiedad de Holly Energy Partners (HEP). La refinería está ubicada en 7406 South Main Street en la ciudad de Lovington, condado de Lea, NM 88260 en la sección 15, municipio 16 sur, rango 36 este, meridiano principal de Nuevo México (NMPM), condado de Lea. La Refinería es una instalación de destilación de crudo/vacío que procesa el petróleo crudo en productos intermedios que se transportan a Artesia por medio de oleoductos intermedios para luego convertirlos en productos terminados. La Refinería tiene una capacidad de almacenamiento de 1,042,856 barriles/día, con un rendimiento promedio diario de aproximadamente 70,000 barriles/día.

El agua subterránea que puede verse afectada por una descarga potencial (no intencional) en la refinería ocurre a una profundidad de aproximadamente 100 pies debajo de la superficie del suelo con una concentración total de sólidos disueltos de aproximadamente 1,440 miligramos por litro (mg/L).

Publisher

Sworn and subscribed to before me this
16th day of June 2022.

Circulation Clerk

My commission expires
October 29, 2022
(Seal)

This newspaper is duly qualified to publish legal notices or advertisements within the meaning of Section 3, Chapter 167, Laws of 1937 and payment of fees for said

Notice of Permit Application

On April 6, 2022, the HollyFrontier Navajo Refining LLC (Navajo), Lovington, New Mexico (NM), Refinery (the Refinery), submitted a Groundwater Discharge Plan to the New Mexico Energy, Minerals & Natural Resources Department Oil Conservation Division (OCD) as the application for a Discharge Permit (the Discharge Permit Application). This Discharge Permit Application provides information on current Refinery operations and potential (unintentional) discharges at the Refinery. As specified in 20.6.2.3108(B) New Mexico Administrative Code (NMAC), the Refinery is posting this public notice of discharge permit application in a newspaper to inform the general public. This public notice includes the information required by 20.6.2.3108(F) NMAC.

The Refinery is a crude/vacuum distillation facility that processes crude oil into intermediate products that are transported to the Navajo Artesia Refinery by means of intermediate pipelines owned by Holly Energy Partners (HEP). The Refinery is located at 7406 South Main Street in the City of Lovington, Lea County, NM, 88260 in Section 15, Township 16 South, Range 36 East, New Mexico Principal Meridian (NMPM), Lea County. The Refinery is a crude/vacuum distillation facility that processes crude oil into intermediate products that are transported to the Navajo Artesia Refinery by means of intermediate pipelines to be later upgraded into finished products. The Refinery has a storage capacity of 1,238,453 barrels/day, with an average daily throughput of approximately 69,931 barrels/day.

Ground water that may be affected by a potential (unintentional) discharge at the Refinery occurs at a depth of approximately 100 feet below ground surface with a total dissolved solids concentration of approximately 1,440 milligrams per liter (mg/L).

Comments, questions, and requests for a copy of the application (either a paper copy or an electronic copy via the internet) should be sent to the following OCD contact:
