Victoria or NMOCD Team,

This is to inform you that we discovered a liner issue yesterday afternoon and are working to dewater our Sand Dunes 11 South Pond. The primary liner is leaking below the fluid surface level and, per 19.15.34.13.B.5, we are de-watering the pit. We will not have the pit empty within 48 hours; therefore, we'd like to request an extension until 2/14/2023 so we have ample time to adequately clean out any solids on the bottom of the pond, inspect the liner, and make repairs. At this moment, we have no reason to believe the secondary liner has been damaged; there has been no release to the environment that we are aware of.
