Subject: Facility ID Transfers

Good Morning, King,

Dwight and I are working on transferring Facility ID's for properties sold to Team Operating, L.L.C. The Facility IDs were created in order to comply with Venting and Flaring rules in New Mexico.

I've included the list of Facility IDs and their status as an attachment to this email. Please note that sometimes Facility IDs are used to track open releases. In this case, there is one open release tied to a Facility ID, however that open release has already transferred to Team during the C145 transfer process.

Ashley Maxwell (see email below) needs an authorized employee of Team Operating, L.L.C. to confirm such transfers from Legacy to Team. As an authorized officer, can you please confirm?

Thanks,
Meredith

Good Morning,

We just need email verification from Team stating that they agree to the transfer of the facilities and their associated incidents. I believe last time it was King Tomlinson, their VP, that approved the previous list.

Good morning,

I have attached a list of the facilities that Meredith referenced in her email below. Most of the facilities on the list were registered for venting and flaring rule reporting purposes. However, there are a few that appear to have been tied to releases. I believe that Meredith has already provided some transaction documents related to these divestitures and the associated wells have transferred, except for a few wells that are pending transfer to Team. Please let us know if there are additional steps we need to take with respect to the facility transfers.

Hi Ashley,

The whole Facility ID Conundrum with Rock Queen initiated a search on our end. It looks like we have a large amount of facility IDs that have not transferred. Is there some paperwork we missed?

Thanks,
Meredith
