

**C-147 Annual Extension request (Hayhurst NM 2RF-107)**

To Whom It May Concern:

Chevron MCBU respectfully submits the enclosed C-147 form, summary of monthly inspections, and leak detection for the Hayhurst New Mexico T26S R27E Sections 2, 9, and 10 Recycling Facility & Containments. For original site plans and submittals, please refer to the facility's original registration application, 2RF-107, received on 1/13/2017. In accordance with NMAC 19.15.34.10 RECYCLING CONTAINMENTS, Chevron MCBU is requesting an annual extension.

- 19.15.34.10 (C) NMAC states: *"Registered recycling containments may be operated for five years from the date on which the registration is filed with the division. The operator may extend the allowed time on an annual basis thereafter with division approval if, 30 days prior to the registration expiration, the operator files a form C-147 with an attached summary showing all monthly inspections at the containment, including the monitoring of the leak detection system, showing the containment's integrity has not been compromised."*

### 2RF-107 - HAYHURST SECTIONS 9 AND 10 RECYCLING FACILITY [fMLB1702342252]

Good afternoon Mr. Doerr.

NMOCD has reviewed the determination of registration/permit extension request for 2RF-107 - HAYHURST SECTIONS 9 AND 10 RECYCLING FACILITY [fMLB1702342252] received from [4323] CHEVRON USA INC on November 12, 2024, Application ID 402570. The registration/permit extension request is approved with the following conditions of approval:

- The 2RF-107 - HAYHURST SECTIONS 9 AND 10 RECYCLING FACILITY [fMLB1702342252] is approved for one (1) year of operation from the date of the previous registration/permit expiration date of November 18, 2024. The new registration/permit expiration date is November 18, 2025.
- [4323] CHEVRON USA INC will continue to operate, maintain, and close the 2RF-107 - HAYHURST SECTIONS 9 AND 10 RECYCLING FACILITY [fMLB1702342252] in compliance with 19.15.34 NMAC, to include but not limited to the performance of weekly inspections regardless of fluid levels in the containment; recording of detailed inspection reports; removal of debris, foreign objects and oil from the containment; and monthly reporting of recycling and reuse of produced water, drilling fluids, and liquid oil field waste via from C-148.
- [4323] CHEVRON USA INC will maintain a liquid level in the containment that is at least equal to the weight of the liner plus 20%. [4323] CHEVRON USA INC may maintain a higher liquid level if they choose.
- If less than 20% of the total fluid capacity is utilized every six consecutive months, operation of the facility is considered ceased and notification of cessation of operations should be sent electronically to OCD e-Permitting. An extension to extend the cessation of operations, not to exceed six months, may be submitted using a C-147 form through OCD Permitting.
- A minimum of 3-feet freeboard must be maintained in the recycling containment at all times.
- [4323] CHEVRON USA INC will comply with 19.15.29 NMAC Releases in the event of any release of produced water or other oil field wastes at 2RF-107 - HAYHURST SECTIONS 9 AND 10 RECYCLING FACILITY [fMLB1702342252]. [4323] CHEVRON USA INC will comply with all other OCD rules.
- [4323] CHEVRON USA INC must perform weekly inspections of the containment and leak detection system.
- If [4323] CHEVRON USA INC wishes to extend the registration/permit past November 18, 2025, a registration/permit extension request must be submitted to OCD. Extension requests are reviewed on a case-by-case basis and evaluated on their merit. Extensions are considered for a maximum length of one year. Additional requests must be submitted to OCD through OCD Permitting on a Form C-147 (long form) as an Extension request and should include a formal extension request letter, a summary of the prior registration/permit period inspection reports, and the copies of the detailed inspection records for the prior permit period. The extension request should be submitted no later than October 18, 2025.

Please let me know if you have any additional questions.
