1RF-488 - REVELATION CONTAINMENT FACILITY ID [fVV2219539492]

Good afternoon Mr. Gallagher.

NMOCD has reviewed the cessation of operations extension request submitted by [371643] SOLARIS WATER MIDSTREAM, LLC on 06/02/2025, Application ID **469682** for 1RF-488 - REVELATION CONTAINMENT FACILITY ID [fVV2219539492] in F-14-24S-34E, Lea County, New Mexico. The extension of the cessation of operations is approved with the following conditions of approval:

- 1RF-488 REVELATION CONTAINMENT FACILITY ID [fVV2219539492] extension of cessation of operations is approved from June 1, 2025, to December 1, 2025. However, if after this 6-month period, the containment was not utilized at a minimum of 20% fluid capacity, no additional extensions would be granted, and the operator would be directed to remove all fluids and proceed with the closure requirements.
- [371643] SOLARIS WATER MIDSTREAM, LLC will maintain a liquid level in the containment that is at least equal to the weight of the liner plus 20%. [371643] SOLARIS WATER MIDSTREAM, LLC may maintain a higher liquid level if they choose.
- [371643] SOLARIS WATER MIDSTREAM, LLC will provide written notice to OCD at least 72 hours, but no
 more than one week, prior to the recommencement of operations. Recommencement of recycling
 operations means that the operator plans to resume moving fluids through the containment and
 discharging fluids from the containment.
 - At the resumption of recycling operations, [371643] SOLARIS WATER MIDSTREAM, LLC is required
 to perform an incremental fluid level test for containment liquid levels above the minimum liquid
 level.
 - [371643] SOLARIS WATER MIDSTREAM, LLC will fill the containment. [371643] SOLARIS WATER MIDSTREAM, LLC will pause filling operations at every 10% of total fluid capacity above the minimum level.
 - If there are no liquids present in the leak detection system, [371643] SOLARIS WATER MIDSTREAM, LLC may proceed to fill the next 10% volume and repeat the process until the containment full design capacity minus the 3-feet of freeboard is reached.
 - If liquids are present, [371643] SOLARIS WATER MIDSTREAM, LLC should immediately cease the incremental fill test and perform a liner inspection.
