Victoria,

During the incremental fill test, fluid was observed in the leak detection system. OWL has ceased the test and will proceed with a liner inspection. A formal C-147 Long Form will follow via the NMOCD portal. OWL will begin assessing the liner condition, performing the necessary inspection and repairs, and will resume the incremental fill test once corrective actions are completed to safely return the facility to operation. Please reach out with any questions/concerns.

Victoria,

OWL SWD Operating, LLC intends to initiate incremental fluid level testing at the Javelina Recycling Facility to return to active status beginning **August 13, 2025**. OWL has confirmed that the bobcat family previously observed onsite has vacated the area and no longer presents an impediment to resuming operations.

Please reach out with any questions/concerns.
