Re: EOG Lomas Reuse Pit 1RF-27

Dear Ms. Venegas:

Thank you for allowing EOG to continue to promote water reuse in the State of New Mexico for our operations. EOG plans to continue active completion operations near this pit location into 2026 and would like to formally request an extension to our currently approved permit from 01/29/2026 to 01/29/2027. Please note that our inspection app had an update at the end of June. This caused issues with inspections being completed. Our inspections were conducted during the scheduled date but are marked as completed in January 2026 due to our team going back into these inspections and completing them. This was a system glitch that we have now remedied.

Sincerely,

A handwritten signature in black ink that reads "Morgan Hrcirik".
