Order No. AG-48-9

(2) That the potential producing capacity of all gas wells in the fifteen gas pools listed above is in excess of the nominations of purchasers of gas, and in order to prevent waste and protect correlative rights, the production of gas from the listed fifteen gas pools should be limited, allocated, and distributed during the month of December, 1983.

(3) That all the producing gas wells, together with the expected completed or recompleted wells in the fifteen gas pools listed above, can produce a total of 11,819,067 Mcf without causing waste during the month of December, 1983, and an allocation based upon such production would be reasonable and would protect correlative rights.

IT IS THEREFORE ORDERED:

Atoka-Pennsylvanian	146,418 Mcf
