OF THE STATE OF NEW MEXICO

ORDER NO. AG-N-23-B

SUPPLEMENTARY GAS PRORATION ORDER FOR THE MONTH  
OF SEPTEMBER, 1966

---

The Commission held public hearing at Santa Fe, New Mexico, on August 17, 1966, at 9 o'clock a.m., pursuant to legal notice, for the purpose of setting the allowable production of gas from the following nine gas pools in San Juan, Rio Arriba, and Sandoval Counties, New Mexico, for the month of September, 1966.

Blanco-Mesaverde, Basin-Dakota, Aztec-Pictured Cliffs, Ballard-Pictured Cliffs, South Blanco-Pictured Cliffs, Fulcher Kutz-Pictured Cliffs, West Kutz-Pictured Cliffs, Tapacito-Pictured Cliffs, and Devils Fork-Gallup.

NOW, on this 18th day of August, 1966, the Commission, a quorum being present, having considered the supplementary nominations of purchasers, the capacity of producing wells, and being otherwise fully advised in the premises,

FINDS:

(1) That the total nomination of purchasers of gas produced from the above-listed nine gas pools for the month of September, 1966, is 40,250,450 MCF. The individual pool nominations, which total 40,250,450 MCF, are as follows:

Blanco-Mesaverde	15,339,500 MCF
Basin-Dakota	18,642,700 MCF
Aztec-Pictured Cliffs	812,000 MCF
Ballard-Pictured Cliffs	775,800 MCF
South Blanco-Pictured Cliffs	2,752,800 MCF
Fulcher Kutz-Pictured Cliffs	306,100 MCF
West Kutz-Pictured Cliffs	265,800 MCF
Tapacito-Pictured Cliffs	1,197,800 MCF
Devils Fork-Gallup	157,950 MCF

(2) That the potential producing capacity of all gas wells in the nine gas pools listed above is in excess of the nominations of purchasers of gas, and in order to prevent waste and protect correlative rights, the production of gas from the above-listed nine gas pools should be limited, allocated, and distributed during the month of September, 1966.

(3) That all the producing gas wells, together with the expected completed or recompleted wells in the nine gas pools listed above, can produce a total of 40,250,450 MCF without causing waste during the month of September, 1966, and an allocation based upon such production would be reasonable and protect correlative rights.

IT IS THEREFORE ORDERED:

(1) That for the month of September, 1966, the allowable production to be assigned the nine allocated gas pools in San Juan, Rio Arriba, and Sandoval Counties, New Mexico, is as follows:

Blanco-Mesaverde	15,339,500 MCF
Basin-Dakota	18,642,700 MCF
Aztec-Pictured Cliffs	812,000 MCF
Ballard-Pictured Cliffs	775,800 MCF
South Blanco-Pictured Cliffs	2,752,800 MCF
Fulcher Kutz-Pictured Cliffs	306,100 MCF
West Kutz-Pictured Cliffs	265,800 MCF
Tapacito-Pictured Cliffs	1,197,800 MCF
Devils Fork-Gallup	157,950 MCF

(2) That the allocation hereby set for the month of September, 1966, in the nine allocated pools in San Juan, Rio Arriba, and Sandoval Counties, New Mexico, shall be in accordance with the Commission Rules, Regulations, and Orders.

(3) That a proration schedule, duly prepared by the Commission and thereafter adopted for the month of September, 1966, is hereto attached and made a part hereof; it distributes and allocates the allowable production among the gas wells in the nine gas pools listed above for the period stated, in accordance with the Commission Rules, Regulations, and Orders.

The foregoing order shall remain effective until further order of the Commission.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.
