BEFORE THE OIL CONSERVATION COMMISSION  
OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE HEARING  
CALLED BY THE OIL CONSERVATION  
COMMISSION OF NEW MEXICO FOR  
THE PURPOSE OF CONSIDERING:

CASE No. 2132  
Order No. R-1834

APPLICATION OF HUMBLE OIL & REFINING  
COMPANY FOR PERMISSION TO COMMINGLE  
THE PRODUCTION FROM SEVERAL POOLS,  
LEA COUNTY, NEW MEXICO.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 o'clock a.m. on November 30, 1960, at Santa Fe, New Mexico, before Daniel S. Nutter, Examiner duly appointed by the Oil Conservation Commission of New Mexico, hereinafter referred to as the "Commission," in accordance with Rule 1214 of the Commission Rules and Regulations.

NOW, on this 8th day of December, 1960, the Commission, a quorum being present, having considered the application, the evidence adduced, and the recommendations of the Examiner, Daniel S. Nutter, and being fully advised in the premises,

FINDS:

- (1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.
- (2) That the applicant, Humble Oil & Refining Company, is the owner and operator of the State "V" Lease consisting of the SW/4, W/2 SE/4, and NE/4 SE/4 of Section 10, Township 21 South, Range 37 East, NMPM, Lea County, New Mexico.
- (3) That the applicant seeks permission to commingle the production from the Blinebry Oil Pool, Brunson Pool, Drinkard Pool, Hare Pool, Tubb Oil Pool and Wantz Abo Pool with the liquid production from the Blinebry Gas Pool and Tubb Gas Pool.
- (4) That the applicant proposes to allocate production from the various pools on the basis of monthly well tests except that separate metering and separation facilities would be used for oil well and gas well completions.
- (5) That the ownership of the above-described State "V" Lease is common at all depths.

-2-  
CASE No. 2132  
Order No. R-1834

IT IS THEREFORE ORDERED:

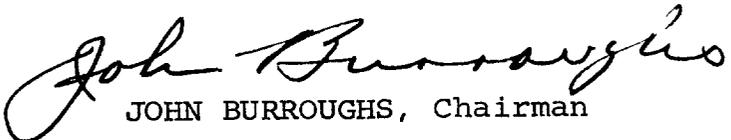

That the applicant, Humble Oil & Refining Company, be and the same is hereby authorized to commingle the production from the Blinebry Oil Pool, Brunson Pool, Drinkard Pool, Hare Pool, Tubb Oil Pool and Wantz Abo Pool with the liquid production from the Blinebry Gas Pool and the Tubb Gas Pool from all wells located on the State "V" Lease consisting of the SW/4, W/2 SE/4, and NE/4 SE/4 of Section 10, Township 21 South, Range 37 East, NMPM, Lea County, New Mexico, with allocation of production to the various pools on the basis of monthly well tests except that separate metering and separation facilities shall be used for oil well and gas well completions.

PROVIDED HOWEVER, That the applicant shall install separate metering facilities to the satisfaction of the Commission in the event any well producing from any of the above-mentioned pools shall become capable of making top unit allowable.

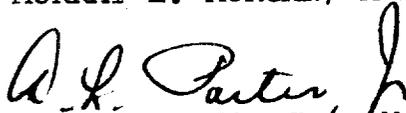

PROVIDED FURTHER, That the applicant shall install adequate facilities to permit the testing of all wells on the said State "V" Lease at least once each month to determine the individual production from each well.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This not only helps in tracking expenses but also ensures compliance with tax regulations.

In the second section, the author outlines the various methods used for data collection and analysis. These include direct observation, interviews, and the use of specialized software tools. Each method has its own set of advantages and limitations, and the choice of method depends on the specific requirements of the study.

The third section provides a detailed overview of the results obtained from the data analysis. It highlights several key findings that have significant implications for the field. These findings are supported by statistical data and are presented in a clear and concise manner.

Finally, the document concludes with a series of recommendations for future research. It suggests that further studies should focus on refining the data collection methods and exploring new areas of inquiry. The author also expresses confidence in the reliability of the current findings and their potential for practical application.
