IT IS THEREFORE ORDERED:

That the applicant, Hondo Oil & Gas Company, is hereby authorized to install an automatic custody transfer system to handle the Culwin-Queen Pool production from all wells presently completed or hereafter drilled on the State RD Lease, comprising the S/2, the SW/4 NW/4 and the W/2 NE/4 of Section 36, Township 18 South, Range 30 East, NMPM, Eddy County, New Mexico.

PROVIDED HOWEVER, That the installation shall conform to Exhibit Nos. 2 and 3 in this case, and shall include a set-stop counter to automatically stop the flow of oil through the automatic custody transfer system at or prior to the time the allowable has been run and shall also include a non-reset totalizer.

PROVIDED FURTHER, That the applicant shall install adequate facilities to permit the testing of all wells located on the above-described State RD Lease at least once each month to determine the individual production from each well.

PROVIDED FURTHER, That in order to prevent the overflow and waste of oil in the event the automatic custody transfer system fails to transfer oil to the pipeline, the applicant shall add additional storage facilities from time to time, as it becomes necessary, to store the production which will accrue during the hours that said lease is unattended.

PROVIDED FURTHER, That all meters used in the above-described automatic custody transfer system shall be operated and maintained in such a manner as to ensure an accurate measurement of the liquid hydrocarbon production at all times.

That meters shall be checked for accuracy at least once each month until further direction by the Secretary-Director.

That meters shall be calibrated against a master meter or against a test tank of measured volume and the results of such calibration filed with the Commission on the Commission form entitled "Meter Test Report."

IT IS FURTHER ORDERED:
