IN THE MATTER OF THE HEARING CALLED BY THE OIL CONSERVATION COMMISSION ON ITS OWN MOTION FOR CREATION OF THE SCARBOROUGH YATES-SEVEN RIVERS POOL AND FOR SPECIAL POOL RULES, LEA COUNTY, NEW MEXICO.

Entered november 23, 1965

CASE No. 3316 Order No. R-2999 NOMENCLATURE

## ORDER OF THE COMMISSION

### BY THE COMMISSION:

This cause came on for hearing at 9 o'clock a.m. on October 6, 1965, at Santa Fe, New Mexico, before Examiner Elvis A. Utz.

NOW, on this <u>23rd</u> day of November, 1965, the Commission, a quorum being present, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

### FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That by Order No. R-2947, the Commission established a top unit allowable of 128 barrels of oil per day for wells completed in the Yates formation in Section 31, Township 26 South, Range 37 East, NMPM, Lea County, New Mexico.

(3) That said allowable was established pending a more definite determination of the horizontal limits of the Jalmat Gas Pool in Lea County, New Mexico, and the Scarborough Pool in Winkler County, Texas.

(4) That pursuant to the provisions of Order No. R-2947, further studies have been conducted to define the horizontal limits of these pools.

(5) That a new pool should be created in Lea County, New Mexico, and designated the Scarborough Yates-Seven Rivers Pool;

-2-CASE No. 3316 Order No. R-2999

that said pool is a separate common source of supply in New Mexico and is a portion of the common source of supply designated the Scarborough Pool in Winkler County, Texas.

(6) That special rules and regulations should be promulgated for the Scarborough Yates-Seven Rivers Pool in order to prevent waste and protect correlative rights.

(7) That oil wells completed in the Scarborough Pool in Winkler County, Texas, receive a per-acre allowable greater than the per-acre allowable that would be assigned under the Commission's General Rules and Regulations to oil wells completed in the Scarborough Yates-Seven Rivers Pool in Lea County, New Mexico.

(8) That in order to prevent drainage and otherwise prevent waste and protect correlative rights, oil wells completed in the Scarborough Yates-Seven Rivers Pool in Lea County, New Mexico, should be assigned a monthly allowable equal to the monthly peracre allowable assigned to oil wells in the Scarborough Pool in Winkler County, Texas.

(9) That in order to afford to the owner of each property in the Scarborough Yates-Seven Rivers Pool the opportunity to produce his just and equitable share of the oil and gas in the pool, and to otherwise prevent waste and protect correlative rights, a limiting gas-oil ratio of 10,000 cubic feet of gas per barrel of oil should be established and all wells with a gas-oil ratio in excess of 100,000 cubic feet of gas per barrel of oil should be classified as gas wells.

(10) That in order to prevent the economic loss caused by the drilling of unnecessary wells, to avoid the augmentation of risk arising from the drilling of an excessive number of wells, to prevent reduced recovery which might result from the drilling of too few wells, and to otherwise prevent waste and protect correlative rights, 40-acre oil well spacing units and 640-acre gas well spacing units should be established in the subject pool.

# IT IS THEREFORE ORDERED:
