Cause of Release

A packing failure on the recycle pump resulted in the release of approx. 10 bbl. of oil inside of the lined, secondary containment. The source was isolated for repairs and a power-wash crew was dispatched for recovery and cleanup of the containment to eliminate trip/slips/falls. A 48 hour notice will be sent out prior to a formal liner integrity inspection.

In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
