Location of Release Source

Latitude 32.311973

Longitude -103.193142

(NAD 83 in decimal degrees to 5 decimal places)

Site Name Grobe 10" Discharge Line	Site Type Natural Gas Release
Date Release Discovered 02/27/2021	API# (if applicable)

Unit Letter	Section	Township	Range	County
M	08	37E	23S	Lea

Surface Owner: ☐ State ☒ Federal ☐ Tribal ☒ Private (Name Wier)

Nature and Volume of Release

Material Released (Select all that apply and attach calculations or specific justification for the volumes provided below)

<input type="radio"/> Crude Oil	Volume Released (bbls)	Volume Recovered (bbls)
<input type="radio"/> Produced Water	Volume Released (bbls)	Volume Recovered (bbls)
	Is the concentration of dissolved chloride in the produced water >10,000 mg/l?	<input type="radio"/> Yes <input checked="" type="radio"/> No
<input checked="" type="radio"/> Condensate	Volume Released (bbls) 3 BBLS	Volume Recovered (bbls) 3 BBLS
<input checked="" type="radio"/> Natural Gas	Volume Released (Mcf) 362 MCF	Volume Recovered (Mcf) 0
<input type="radio"/> Other (describe)	Volume/Weight Released (provide units)	Volume/Weight Recovered (provide units)

Cause of Release

Corrosion. Pumper discovered liquid on the ground and notified Targa personnel. Leak was isolated. Targa Resources blew down 6.35 (33528 feet) miles of 10" pipeline at an initial pressure of 290 psig resulting in 361.99 MCF of blowdown to atmosphere.

Was this a major release as defined by 19.15.29.7(A) NMAC? <input type="radio"/> Yes <input checked="" type="radio"/> No	If YES, for what reason(s) does the responsible party consider this a major release?
If YES, was immediate notice given to the OCD? By whom? To whom? When and by what means (phone, email, etc)? 	

Initial Response

The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury

<input checked="" type="radio"/> The source of the release has been stopped. <input checked="" type="radio"/> The impacted area has been secured to protect human health and the environment. <input checked="" type="radio"/> Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices. <input type="radio"/> All free liquids and recoverable materials have been removed and managed appropriately.	
If all the actions described above have <u>not</u> been undertaken, explain why: There were no liquids on the ground. Contaminated soil was removed and placed on plastic.	
Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(S)(a) NMAC), please attach all information needed for closure evaluation.	
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
