QUESTIONS

Action 124258

QUESTIONS

Operator: Western Refining Southwest LLC 539 South Main Street Findlay, OH 45840	OGRID: 267595
	Action Number: 124258
	Action Type: [NOTIFY] Notification Of Release (NOR)

QUESTIONS**Location of Release Source**

Please answer all of the questions in this group.

Site Name	Bloomfield Products Terminal
Date Release Discovered	06/27/2022
Surface Owner	Private

Incident Details

Please answer all of the questions in this group.

Incident Type	Release Other
Did this release result in a fire or is the result of a fire	No
Has this release reached or does it have a reasonable probability of reaching a watercourse	No
Has this release endangered or does it have a reasonable probability of endangering public health	No
Has this release substantially damaged or will it substantially damage property or the environment	No
Is this release of a volume that is or may with reasonable probability be detrimental to fresh water	No

Nature and Volume of Release

Material(s) released, please answer all that apply below. Any calculations or specific justifications for the volumes provided should be attached to the follow-up C-141 submission.

Crude Oil Released (bbls) Details	<i>Not answered.</i>
Produced Water Released (bbls) Details	<i>Not answered.</i>
Is the concentration of dissolved chloride in the produced water >10,000 mg/l	<i>Not answered.</i>
Condensate Released (bbls) Details	<i>Not answered.</i>
Natural Gas Vented (Mcf) Details	<i>Not answered.</i>
Natural Gas Flared (Mcf) Details	<i>Not answered.</i>
Other Released Details	<i>Cause: Overflow - Tank, Pit, Etc. Tank (Any) Other (Specify) Released: 20 BBL Recovered: 20 BBL Lost: 0 BBL]</i>
Are there additional details for the questions above (i.e. any answer containing Other, Specify, Unknown, and/or Fire, or any negative lost amounts)	<p>On the morning of June 27, 2022, following a heavy rainfall event, the discharge pump at Tank 37 failed to keep up with the incoming flow and allowed remediation groundwater to overflow the tank into the synthetically lined secondary containment. Between 05:00 and 09:00 approximately 20 barrels of remediation groundwater was released into the secondary containment that is around Tank 37. The secondary containment also collected rainwater from the rainfall event on that same morning. The release from Tank 37 was initially discovered when the facility Operator was investigating a high-level alarm he received for the tank. Once the release was discovered Operations utilized the onsite vacuum truck to draw-down and eventually remove all the released groundwater from the tank secondary containment. The groundwater was deposited in the entrance side of the onsite facility oil-water separator, like how this groundwater is normally managed. Operations also utilized the vacuum truck to bring down the level in Tank 37 to a safe operating capacity until a full assessment could be made and a repair plan implemented. The secondary containment at Tank 37 is a synthetic liner. The integrity of the liner is suitable for containing a release such as the one described above. There is no indication that any released material left containment. The pump discharge line was found to have developed restrictions that did not allow the pump to operate at its normal capacity. Tank 37 receives remediation groundwater from the slurry wall remediation system on the northwest portion of the facility. The groundwater contains trace contamination from historical releases that originated at the onsite refinery that has not been operating since 2009.</p>

QUESTIONS, Page 2

Action 124258

QUESTIONS (continued)

Operator: Western Refining Southwest LLC 539 South Main Street Findlay, OH 45840	OGRID: 267595
	Action Number: 124258
	Action Type: [NOTIFY] Notification Of Release (NOR)

QUESTIONS**Nature and Volume of Release (continued)**

Is this a gas only submission (i.e. only significant Mcf values reported)	No, according to supplied volumes this does not appear to be a "gas only" report.
Was this a major release as defined by 19.15.29.7(A) NMAC	No, minor release.
Reasons why this would be considered a submission for a notification of a major release	
If YES, was immediate notice given to the OCD, by whom	Not answered.
If YES, was immediate notice given to the OCD, to whom	Not answered.
If YES, was immediate notice given to the OCD, when	Not answered.
If YES, was immediate notice given to the OCD, by what means (phone, email, etc.)	Not answered.

With the implementation of the 19.15.27 NMAC (05/25/2021), venting and/or flaring of natural gas (i.e. gas only) are to be submitted on the C-129 form.

Initial Response

The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury.

The source of the release has been stopped	True
The impacted area has been secured to protect human health and the environment	True
Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices	True
All free liquids and recoverable materials have been removed and managed appropriately	True
If all the actions described above have not been undertaken, explain why	Not answered.

Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please prepare and attach a narrative of actions to date in the follow-up C-141 submission. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please prepare and attach all information needed for closure evaluation in the follow-up C-141 submission.

ACKNOWLEDGMENTS

<input checked="" type="checkbox"/> I acknowledge that I am authorized to submit notification of releases on behalf of my operator.
<input checked="" type="checkbox"/> I acknowledge that upon submitting this application, I will be creating a new incident file (assigned to my operator) to track the notification(s) and corrective action(s) for a release, pursuant to NMAC 19.15.29.
<input checked="" type="checkbox"/> I acknowledge that creating a new incident file will require my operator to file subsequent submission(s) of form "C-141, Application for administrative approval of a release notification and corrective action", pursuant to NMAC 19.15.29.
<input checked="" type="checkbox"/> I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment.
<input checked="" type="checkbox"/> I acknowledge the fact that the acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment.
<input checked="" type="checkbox"/> I acknowledge the fact that, in addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
