Frisco, TX 75034

June 07, 2022

Station Name: Slippin Jimmy Sales Check  
Station Location: Steward Energy  
Sample Point: Meter Run  
Cylinder No: 5030-01269  
Analyzed: 06/07/2022 07:08:00 by ERGSampled By: Cameron Rivera  
Sample Of: Gas Spot  
Sample Date: 05/30/2022 07:15  
Sample Conditions: 80.9 psig, @ 100.1 °F  
Method: GPA-2261M

## Analytical Data

| Components       | Mol. %  | Wt. %   | GPM at<br>14.73 psia |                |       |
|------------------|---------|---------|----------------------|----------------|-------|
| Hydrogen Sulfide | 0.699   | 1.021   |                      | GPM TOTAL C2+  | 5.631 |
| Nitrogen         | 5.493   | 6.594   |                      | GPM TOTAL C3+  | 2.844 |

QUESTIONS

| Date(s) and Time(s)                            |            |
|------------------------------------------------|------------|
| Date vent or flare was discovered or commenced | 06/04/2022 |
| Time vent or flare was discovered or commenced | 07:00 AM   |
| Time vent or flare was terminated              | 07:00 AM   |
| Cumulative hours during this event             | 251        |

| Measured or Estimated Volume of Vented or Flared Natural Gas              |                                                                                                                                      |
|---------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                          | Not answered.                                                                                                                        |
| Natural Gas Flared (Mcf) Details                                          | Cause: Midstream Emergency Maintenance   Separator   Natural Gas Flared   Released: 5,493 Mcf   Recovered: 0 Mcf   Lost: 5,493 Mcf ] |
| Other Released Details                                                    | Not answered.                                                                                                                        |
| Additional details for Measured or Estimated Volume(s). Please specify    | Not answered.                                                                                                                        |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                                           |

| Venting or Flaring Resulting from Downstream Activity             |                                       |
|-------------------------------------------------------------------|---------------------------------------|
| Was this vent or flare a result of downstream activity            | Yes                                   |
| Was notification of downstream activity received by this operator | Yes                                   |
| Downstream OGRID that should have notified this operator          | [329800] Stakeholder Gas Utility, LLC |
| Date notified of downstream activity requiring this vent or flare | 06/04/2022                            |
| Time notified of downstream activity requiring this vent or flare | 07:00 AM                              |

| Steps and Actions to Prevent Waste                                                                                               |                                                                                                                                                                                                                            |
|----------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control. | True                                                                                                                                                                                                                       |
| Please explain reason for why this event was beyond this operator's control                                                      | All gas is connected to Stakeholder Midstream Gas Pipeline. Any flaring is due to an upset at their plant or within their gathering system.                                                                                |
| Steps taken to limit the duration and magnitude of vent or flare                                                                 | This is out of our control. Stakeholder attempts to rectify every situation as quickly as possible.                                                                                                                        |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                                | Stakeholder is proceeding with the expansion of the Campo Viejo Gas Processing Plant. Steward Energy II has agreed to certain producer commitments in order to support this expansion expected to be completed April 2022. |
