For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control.	True			
Please explain reason for why this event was beyond this operator's control	As production is decreasing, we are seeing more gas break out of solution, so the VRU we currently have at the facility cannot keep up.			
Steps taken to limit the duration and magnitude of vent or flare	We are in the process of getting an additional VRU installed so that we are flaring less than 90 mcf/day.			
Corrective actions taken to eliminate the cause and reoccurrence of vent or flare	We are in the process of getting an additional VRU installed so that we are flaring less than 90 mcf/day.
