If a Watercourse was Impacted, Describe Fully.*

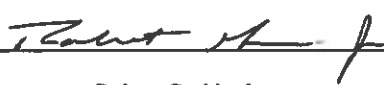

Describe Cause of Problem and Remedial Action Taken.*

This release was caused when a pressure upset pushed the fluid out the combustor causing a small fire. The fire was quickly extinguished itself due to the limited amount of fluid that escaped the combustor.

Describe Area Affected and Cleanup Action Taken.*

This release occurred within the bermed area of the tank battery.
No fluid to recover due to the fire burning off any standing fluids.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
