## Results Summary

| Result                                   | Dry     | Sat.   |  |
|------------------------------------------|---------|--------|--|
| Total Un-Normalized Mole%                | 99.5476 |        |  |
| Pressure Base (psia)                     | 14.730  |        |  |
| Temperature Base (Deg. F)                | 60.00   |        |  |
| Flowing Temperature (Deg. F)             | 81.0    |        |  |
| Flowing Pressure (psia)                  | 88.0    |        |  |
| Gross Heating Value (BTU / Ideal cu.ft.) | 1271.5  | 1249.3 |  |
| Gross Heating Value (BTU / Real cu.ft.)  | 1276.2  | 1254.5 |  |
| Relative Density (G), Real               | 0.7320  | 0.7305 |  |

## Monitored Parameter Report

| Parameter                  | Value   | Lower Limit | Upper Limit | Status |  |
|----------------------------|---------|-------------|-------------|--------|--|
| Total un-normalized amount | 99.5476 | 97.0000     | 103.0000    | Pass   |  |

QUESTIONS

| Date(s) and Time(s)                            |            |
|------------------------------------------------|------------|
| Date vent or flare was discovered or commenced | 12/25/2022 |
| Time vent or flare was discovered or commenced | 12:00 AM   |
| Time vent or flare was terminated              | 11:59 PM   |
| Cumulative hours during this event             | 24         |

| Measured or Estimated Volume of Vented or Flared Natural Gas              |                                                                                                                   |
|---------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                          | Cause: Equipment Failure   Valve   Natural Gas Vented   Released: 2,258 Mcf   Recovered: 0 Mcf   Lost: 2,258 Mcf. |
| Natural Gas Flared (Mcf) Details                                          | Not answered.                                                                                                     |
| Other Released Details                                                    | Cause:     Other (Specify)   Released: 0 (Unknown Released Amount)   Recovered: 0   Lost: 0 .                     |
| Additional details for Measured or Estimated Volume(s). Please specify    | Not answered.                                                                                                     |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                        |

| Venting or Flaring Resulting from Downstream Activity             |               |
|-------------------------------------------------------------------|---------------|
| Was this vent or flare a result of downstream activity            | No            |
| Was notification of downstream activity received by this operator | Not answered. |
| Downstream OGRID that should have notified this operator          | Not answered. |
| Date notified of downstream activity requiring this vent or flare |               |
| Time notified of downstream activity requiring this vent or flare | Not answered. |

| Steps and Actions to Prevent Waste                                                                                              |                                                                                                                          |
|---------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control | True                                                                                                                     |
| Please explain reason for why this event was beyond this operator's control                                                     | A check valve (attached to gas lift) failed leading to a release of natural gas. Volume estimated from inline gas meter. |
| Steps taken to limit the duration and magnitude of vent or flare                                                                | Flow of gas was stopped and inspection/repairs were scheduled.                                                           |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                               | Repair check valve.                                                                                                      |

|                                     |                                                                                                                                                                                                                                                                                                     |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <input checked="" type="checkbox"/> | I acknowledge that with this application I will be amending an existing incident file (assigned to this operator) for a vent or flare event, pursuant to 19.15.27 and 19.15.28 NMAC.                                                                                                                |
| <input checked="" type="checkbox"/> | I acknowledge that amending an incident file does not replace original submitted application(s) or information and understand that any C-129 forms submitted to the OCD will be logged and stored as public record.                                                                                 |
| <input checked="" type="checkbox"/> | I hereby certify the statements in this amending report are true and correct to the best of my knowledge and acknowledge that any false statement may be subject to civil and criminal penalties under the Oil and Gas Act.                                                                         |
| <input checked="" type="checkbox"/> | I acknowledge that the acceptance of any C-129 forms by the OCD does not relieve this operator of liability should their operations have failed to adequately investigate, report, and remediate contamination that poses a threat to groundwater, surface water, human health, or the environment. |
| <input checked="" type="checkbox"/> | I acknowledge that OCD acceptance of any C-129 forms does not relieve this operator of responsibility for compliance with any other applicable federal, state, or local laws and/or regulations.                                                                                                    |
