Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

A fire of unknown origin destroyed a 500 bbl fiberglass tank, resulting in the release of approximately 100 bbls of produced water. The tank has been replaced, and the facility is back in service.

Describe Area Affected and Cleanup Action Taken.*

The majority of the release was confined to the steel containment surrounding the tank and affected an area inside the containment measuring approximately 40' x 40'. The release also affected an area of the adjacent caliche pad measuring approximately 6,800 square feet. The impacted areas were remediated in accordance with NMOCD and BLM guidelines to the extent practicable. Please reference the attached "Remediation Summary & Site Closure Request" for remediation details.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
