Was this a major release as defined by 19.15.29.7(A) NMAC? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, for what reason(s) does the responsible party consider this a major release? If YES, was immediate notice given to the OCD? By whom? To whom? When and by what means (phone, email, etc)? Notification by Ray Smalts on 5/2/2023 given to Mike Bratcher via Email at 12:39PM.
---	---

Initial Response

The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury

<input checked="" type="checkbox"/> The source of the release has been stopped. <input checked="" type="checkbox"/> The impacted area has been secured to protect human health and the environment. <input checked="" type="checkbox"/> Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices. <input checked="" type="checkbox"/> All free liquids and recoverable materials have been removed and managed appropriately.
If all the actions described above have <u>not</u> been undertaken, explain why: Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation.
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: Notification of Release - A-2-3-5 Ext 2 Pipeline Leak
Date: Tuesday, May 2, 2023 12:39:17 PM
Attachments: [image001.png](#)
[image002.png](#)

Mr. Bratcher:

Operations notified me of a pipeline leak on the A-2-3-5 Ext 2 pipeline in Lea county. The event occurred at **32.82257, -103.47281**. A third party Environmental company (Tasman) has determined the volume released is ~6.1 bbls and exceeds the reportable threshold. Tasman will follow up with the appropriate reporting response. The discovery date and time for the event was 05/01/2023 at 14:27.

Therefore:

In an abundance of caution and to meet potentially applicable reporting deadlines, DCP is submitting this initial report based on the information currently available and DCP's understanding of the facts at this time; however, DCP's investigation and assessment is ongoing. DCP therefore reserves the right to supplement and revise the information in this initial report if and as new information becomes available. DCP also reserves the right to raise any arguments, facts, or defenses regarding this incident, including that this incident is not a "major release" as defined by 19.15.29.7(A) NMAC.

Please contact me or Nick if you have any additional questions or concerns for this possible NOR.

Thanks...

Ray Smalts

A-2-3-4 Ext 2 Line Barrels Released Calculation

$$\frac{\text{Square Footage}}{27} = \frac{1,754}{27} \times \text{Height (ft)} = \frac{0.5}{27} = 32.48148 \text{ feet}^3$$

$$32.481481 \times 0.1781 = 5.7849519 \text{ barrels released}$$

$$\frac{\text{Square Footage}}{27} = \frac{676}{27} \times \text{Height (ft)} = \frac{0.01}{27} = 0.25037 \text{ feet}^3$$

$$0.2503704 \times 0.1781 = 0.044591 \text{ barrels released}$$
