

Attachment to Form C-141

February 5, 2019

API# 30-025-27886 – Richardson SWD

2/12/16 – After being requested by OCD, we collected soil samples and sent them to Cardinal Laboratories for testing.

2/18/16 – We received the test results from Cardinal Laboratories.

2/22/16 – We emailed the lab test results and a map of sample locations to Kellie Jones with OCD (our email, test results and map are included in this submittal). The tests came back with acceptable results.

Kellie,

I've attached a map (showing the sample locations) along with the test results we just received from Cardinal Laboratories.

There are two things I would like to bring to your attention regarding these test results:

1. The Hull House Water sample was taken from where the house used to be. This was a water sample only, and only tested for chlorides.
2. Sample #7 was taken at the same place (where the old Hull House used to be). As you can see, the 4-foot deep soil sample chlorides are only 48.

Please give me a call if you have questions,

Danny Watson

RE: RICHARDSON

Enclosed are the results of analyses for samples received by the laboratory on 02/12/16 13:00.

Cardinal Laboratories is accredited through Texas NELAP under certificate number T104704398-15-7. Accreditation applies to drinking water, non-potable water and solid and chemical materials. All accredited analytes are denoted by an asterisk (*). For a complete list of accredited analytes and matrices visit the TCEQ website at www.tceq.texas.gov/field/qa/lab_accred_certif.html.

Cardinal Laboratories is accredited through the State of Colorado Department of Public Health and Environment for:

Method EPA 552.2	Haloacetic Acids (HAA-5)
Method EPA 524.2	Total Trihalomethanes (TTHM)
Method EPA 524.4	Regulated VOCs (V1, V2, V3)

Accreditation applies to public drinking water matrices.

This report meets NELAP requirements and is made up of a cover page, analytical results, and a copy of the original chain-of-custody. If you have any questions concerning this report, please feel free to contact me.

Sincerely,

A handwritten signature in black ink that reads "Celey D. Keene". The signature is written in a cursive, flowing style.

Closure

The responsible party must attach information demonstrating they have complied with all applicable closure requirements and any conditions or directives of the OCD. This demonstration should be in the form of a comprehensive report (electronic submittals in .pdf format are preferred) including a scaled site map, sampling diagrams, relevant field notes, photographs of any excavation prior to backfilling, laboratory data including chain of custody documents of final sampling, and a narrative of the remedial activities. Refer to 19.15.29.12 NMAC.

Closure Report Attachment Checklist: *Each of the following items must be included in the closure report.*

- ☒ A scaled site and sampling diagram as described in 19.15.29.11 NMAC
- ☐ Photographs of the remediated site prior to backfill or photos of the liner integrity if applicable (Note: appropriate OCD District office must be notified 2 days prior to liner inspection)
- ☒ Laboratory analyses of final sampling (Note: appropriate OCD District office must be notified 2 days prior to final sampling)
- ☒ Description of remediation activities

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations. The responsible party acknowledges they must substantially restore, reclaim, and re-vegetate the impacted surface area to the conditions that existed prior to the release or their final land use in accordance with 19.15.29.13 NMAC including notification to the OCD when reclamation and re-vegetation are complete.

DKD, LLC

Form C-141 – Additional Information

I would like to request a couple of weeks to clean up the location. Because of all the rain we have had and are expecting we would like to let the mud dry out. I feel we are in as good a shape we can be at the present time. When we were pushing up the dikes, we found clay below the grass surface. It had already rained 1-inch when the tank battery caught fire.

Also, my insurance company has asked that we leave the location as it is until an adjuster can get out to inspect it. I will notify the OCD as soon as this can happen.

Danny R. Watson
DKD, LLC Owner

Volume of Release:

400 bbls:	SWD spill
<u>200 bbls:</u>	Fire Dept water & rain water
600 bbls	total outside the dike

300 bbls:	SW pulled out of tanks
<u>240 bbls:</u>	pulled out of dike
540 bbls	total

1140 bbls	grand total released
-----------	----------------------

All 1140 bbls were hauled off to Gandy Marley land farm.
