Was this a major release as defined by 19.15.29.7(A) NMAC? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	If YES, for what reason(s) does the responsible party consider this a major release? Unknown volume.
If YES, was immediate notice given to the OCD? By whom? To whom? When and by what means (phone, email, etc)? To Mike Bratcher, OCD.Enviro@emnrd.nm.gov . Via email. 11/09/2023 at 15:23 MST	

Initial Response

The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury

<input checked="" type="checkbox"/> The source of the release has been stopped.	
<input checked="" type="checkbox"/> The impacted area has been secured to protect human health and the environment.	
<input checked="" type="checkbox"/> Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices.	
<input checked="" type="checkbox"/> All free liquids and recoverable materials have been removed and managed appropriately.	
If all the actions described above have <u>not</u> been undertaken, explain why: Active delineation is occurring to determine the extent of the release. The source of the release is under investigation. As a precaution, flow into the suspect SW tank has been rerouted. The SW tank has been drained.	
Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation.	
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

To whom it may concern (c/o Andrew Parker for AMEREDEV OPERATING, LLC),

The OCD has accepted the submitted *Notification of a release* (NOR), for incident ID (n#) nAPP2331355540, with the following conditions:

- **When submitting future reports regarding this release, please submit the calculations used or specific justification for the volumes reported on the initial C-141.**

Please reference nAPP2331355540, on all subsequent C-141 submissions and communications regarding the remediation of this release.

NOTE: As of December 2019, NMOCD has discontinued the use of the "RP" number.

If you have any questions regarding this application, or don't know why you have received this email, please contact us.

Subject: Notification of Major Release Red Bud CTB

Mr. Bratcher,

Please accept this email as a major release notification at the Red Bud CTB (fAPP2203928043). A suspect release was verified on November 8, 2023 during investigations under the secondary containment primarily liner. Hydrocarbon impacted soils was observed during the investigation.

The release volume is unknown and is considered a Major Release per 19.15.29.7.A NMAC. Active delineation is occurring to determine the extent of the release. The source of the release is under investigation. As a precaution, flow into the suspect SW tank has been rerouted.

Location: Red Bud CTB (fAPP2203928043).

Lat/Long: 32.0771155, -103.510649

UL; TRS: UL B; Sec 5, T26S R36E

Volume: Unknown

Source: SW Tank

Material: Oil

A NOR and C-141 will follow within the next few days via the NMOCD online portal.

Thank you,

Andrew Parker
