QUESTIONS

| Date(s) and Time(s)                            |            |
|------------------------------------------------|------------|
| Date vent or flare was discovered or commenced | 08/01/2024 |
| Time vent or flare was discovered or commenced | 11:01 AM   |
| Time vent or flare was terminated              | 04:52 PM   |
| Cumulative hours during this event             | 4          |

| Measured or Estimated Volume of Vented or Flared Natural Gas              |                                                                                                                    |
|---------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                          | Not answered.                                                                                                      |
| Natural Gas Flared (Mcf) Details                                          | Cause: High Line Pressure   Separator   Natural Gas Flared   Released: 631 Mcf   Recovered: 0 Mcf   Lost: 631 Mcf. |
| Other Released Details                                                    | Cause:     Other (Specify)   Released: 0 (Unknown Released Amount)   Recovered: 0   Lost: 0                        |
| Additional details for Measured or Estimated Volume(s). Please specify    | Not answered.                                                                                                      |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                         |

| Venting or Flaring Resulting from Downstream Activity             |                                |
|-------------------------------------------------------------------|--------------------------------|
| Was this vent or flare a result of downstream activity            | Yes                            |
| Was notification of downstream activity received by this operator | No                             |
| Downstream OGRID that should have notified this operator          | [147831] Lucid Artesia Company |
| Date notified of downstream activity requiring this vent or flare |                                |
| Time notified of downstream activity requiring this vent or flare | Not answered.                  |

| Steps and Actions to Prevent Waste                                                                                              |                                         |
|---------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control | True                                    |
| Please explain reason for why this event was beyond this operator's control                                                     | Lucid high line pressure.               |
| Steps taken to limit the duration and magnitude of vent or flare                                                                | Flaring stops when line pressure drops. |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                               | Notified Lucid.                         |
