QUESTIONS

| Date(s) and Time(s)                            |            |
|------------------------------------------------|------------|
| Date vent or flare was discovered or commenced | 10/02/2024 |
| Time vent or flare was discovered or commenced | 07:00 AM   |
| Time vent or flare was terminated              | 07:00 PM   |
| Cumulative hours during this event             | 12         |

| Measured or Estimated Volume of Vented or Flared Natural Gas              |                                                                                                                                       |
|---------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                          | Not answered.                                                                                                                         |
| Natural Gas Flared (Mcf) Details                                          | Cause: Midstream Scheduled Maintenance   Other (Specify)   Natural Gas Flared   Released: 919 Mcf   Recovered: 0 Mcf   Lost: 919 Mcf. |
| Other Released Details                                                    | Not answered.                                                                                                                         |
| Additional details for Measured or Estimated Volume(s). Please specify    | Not answered.                                                                                                                         |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                                            |

| Venting or Flaring Resulting from Downstream Activity             |               |
|-------------------------------------------------------------------|---------------|
| Was this vent or flare a result of downstream activity            | No            |
| Was notification of downstream activity received by this operator | Not answered. |
| Downstream OGRID that should have notified this operator          | Not answered. |
| Date notified of downstream activity requiring this vent or flare | Not answered. |
| Time notified of downstream activity requiring this vent or flare | Not answered. |

| Steps and Actions to Prevent Waste                                                                                               |                                                      |
|----------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control. | True                                                 |
| Please explain reason for why this event was beyond this operator's control                                                      | Targa shut down for maintenance                      |
| Steps taken to limit the duration and magnitude of vent or flare                                                                 | Consistent communication with the midstream provider |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                                | Consistent communication with the midstream provider |
