|                              | [C-141] Initial C-141 (C-141-v-Initial) |

#### QUESTIONS

| Prerequisites    |                            |
|------------------|----------------------------|
| Incident ID (n#) | nAPP2504525026             |
| Incident Name    | NAPP2504525026 LEAK #7 @ 0 |
| Incident Type    | Natural Gas Release        |
| Incident Status  | Initial C-141 Received     |
|                  |                            |

#### Location of Release Source

| Please answer all the questions in this group. |            |
|--|------------|
| Site Name                                      | Leak #7    |
| Date Release Discovered                        | 02/07/2025 |
| Surface Owner                                  | State      |

#### Incident Details

| Please answer all the questions in this group.  |                     |
|---|---------------------|
| Incident Type   | Natural Gas Release |
| Did this release result in a fire or is the result of a fire  | No                  |
| Did this release result in any injuries   | No                  |
| Has this release reached or does it have a reasonable probability of reaching a<br>watercourse          | No                  |
| Has this release endangered or does it have a reasonable probability of<br>endangering public health    | No                  |
| Has this release substantially damaged or will it substantially damage property or<br>the environment   | No                  |
| Is this release of a volume that is or may with reasonable probability be<br>detrimental to fresh water | No                  |

#### Nature and Volume of Release

Material(s) released, please answer all that apply below. Any calculations or specific justifications for the volumes provided should be attached to the follow-up C-141 submission.

| Crude Oil Released (bbls) Details   | Not answered.   |
|---|---|
| Produced Water Released (bbls) Details  | Not answered.   |
| Is the concentration of chloride in the produced water >10,000 mg/l   | No  |
| Condensate Released (bbls) Details  | Cause: Corrosion   Pipeline (Any)   Condensate   Released: 5 BBL   Recovered: 0 BBL   Lost: 5 BBL.              |
| Natural Gas Vented (Mcf) Details  | Cause: Corrosion   Pipeline (Any)   Natural Gas Vented   Released: 54 MCF   Recovered: 0<br>MCF   Lost: 54 MCF. |
| Natural Gas Flared (Mcf) Details  | Not answered.   |
| Other Released Details  | Not answered.   |
| Are there additional details for the questions above (i.e. any answer containing<br>Other, Specify, Unknown, and/or Fire, or any negative lost amounts) | Not answered.   |

QUESTIONS

| Nature and Volume of Release (continued)   |   |
|--|---|
| Is this a gas only submission (i.e. only significant Mcf values reported)                            | Yes, according to supplied volumes this will be treated as a "gas only" report. |
| Was this a major release as defined by Subsection A of 19.15.29.7 NMAC                               | No  |
| Reasons why this would be considered a submission for a notification of a major release              | Unavailable.  |
| With the implementation of the 19.15.27 NMAC (05/25/2021), venting and/or flaring of natural gas (i. | e. gas only) are to be submitted on the C-129 form.                             |

| Initial Response  |   |  |
|---|---|--|
| The responsible party must undertake the following actions immediately unless they could create a s   | afety hazard that would result in injury.   |  |
| The source of the release has been stopped  | True  |  |
| The impacted area has been secured to protect human health and the<br>environment   | True  |  |
| Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices  | True  |  |
| All free liquids and recoverable materials have been removed and managed<br>appropriately   | True  |  |
| If all the actions described above have not been undertaken, explain why<br>Per Paragraph (4) of Subsection B of 19 15 29 8 NMAC the responsible party may commence remedi  | Not answered.<br>ation immediately after discovery of a release. If remediation has begun, please prepare and attach a narrative of |  |
| schors to determ the follow-up C-141 submission. If remediated from the ben successfully completed or if the release occurred within a lined containment area (see Subparagraph (a) of Paragraph (5) of Subsection A of 19.15.29.11 NMAC), please prepare and attach all information needed for closure evaluation in the follow-up C-141 submission.   |   |  |
| hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are require<br>to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report b<br>the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface<br>water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or<br>ocal laws and/or regulations. |   |  |

#### QUESTIONS

Site Characterization

Please answer all the questions in this group (only required when seeking remediation plan approval and beyond). This information must be provided to the appropriate district office no later than 90 days after the release discovery date.

| What is the shallowest depth to groundwater beneath the area affected by the release in feet below ground surface (ft bgs)   | Not answered.                   |
|--|---------------------------------|
| What method was used to determine the depth to ground water  | Not answered.                   |
| Did this release impact groundwater or surface water   | Not answered.                   |
| What is the minimum distance, between the closest lateral extents of the release an  | nd the following surface areas: |
| A continuously flowing watercourse or any other significant watercourse  | Not answered.                   |
| Any lakebed, sinkhole, or playa lake (measured from the ordinary high-water mark)  | Not answered.                   |
| An occupied permanent residence, school, hospital, institution, or church  | Not answered.                   |
| A spring or a private domestic fresh water well used by less than five households<br>for domestic or stock watering purposes | Not answered.                   |
| Any other fresh water well or spring   | Not answered.                   |
| Incorporated municipal boundaries or a defined municipal fresh water well field  | Not answered.                   |
| A wetland  | Not answered.                   |
| A subsurface mine  | Not answered.                   |
| An (non-karst) unstable area   | Not answered.                   |
| Categorize the risk of this well / site being in a karst geology   | Not answered.                   |
| A 100-year floodplain  | Not answered.                   |
| Did the release impact areas not on an exploration, development, production, or storage site                                 | Not answered.                   |

#### Remediation Plan

Please answer all the questions that apply or are indicated. This information must be provided to the appropriate district office no later than 90 days after the release discovery date.

Requesting a remediation plan approval with this submission

No The OCD recognizes that proposed remediation measures may have to be minimally adjusted in accordance with the physical realities encountered during remediation. If the responsible party has any need to significantly deviate from the remediation plan proposed, then it should consult with the division to determine if another remediation plan submission is required.
