On 1/26/2026, ExxonMobil (EOM) submitted a cancellation request for incident NAB1420952684. This is a former BOPCO (OGRID # 260737). Per posted information on the cancellation request, the OCD wrote, “**The following conflicts were detected and must be resolved to submit this application:**

- **reporting venting and/or flaring for another operator's wells is not allowed at this time;**
- **associated IDs addition(s) and/or changes are not allowed on amendment submissions.”**

EOM has assumed ownership of the BOPCO wells and spills. For this reason, EOM submitted the cancellation request. Can the OCD reconsider this cancellation request as it is a duplicate of nab1420952742? If it can not be, could you let me know how to best remedy this incident?
