**RE: Application for Exception to 19.15.27 NMAC
Scout Energy Management LLC (330949)
Mexico J and L Battery
Lea County, New Mexico**

To Whom It May Concern,

Scout Energy Management LLC requests approval under 19.15.27 NMAC to temporarily flare casinghead gas from the Mexico J and L Battery in Lea County, New Mexico. The flaring occurred from April 8, 2026, at approximately 11:47 a.m. through April 23, 2026, at approximately 7:45 a.m.

Scout evaluated multiple alternatives to offload gas to another purchaser, but due to current infrastructure limitations and economic constraints, routing the gas was not economically feasible at this time. Temporary flaring was necessary to allow continued production of recoverable oil from the subject wells and to prevent operational disruption.

If you have any questions or need any additional information, please feel free to contact me at (469) 485-3122.
