Santa Fe, NM 87505

To Whom It May Concern:

High River Resources Operating, LLC would like to request a NGC RATE ADJUSTMENT REQUEST (NGC-ADJUST). The rate is currently showing High River at 94.04%. This rate is calculated using total production and sales numbers for all High River's current wells. However, this rate should only be using production from the non-tribal wells that High River reports on the C115B. I have included a spreadsheet with total production numbers for reference. We believe the average rate for 2023 should be 98.30%.

Best Regards,

A handwritten signature in blue ink, appearing to be "AA", is placed above the printed name.
