OCD Reviewer	Condition
kjones	Will require a directional survey with the C-104
kjones	Once the well is spud, to prevent ground water contamination through whole or partial conduits from the surface, the operator shall drill without interruption through the fresh water zone or zones and shall immediately set in cement the water protection string
kjones	Cement is required to circulate on both surface and production strings of casing
kjones	Cement is required to circulate on both surface and intermediate1 strings of casing
kjones	If cement does not circulate to surface, must run temperature survey or other log to determine top of cement.
