D. Distance _____ Estimated cost of connection _____

E. This exception is requested for the following reasons: BTA OIL PRODUCERS, LLC Respectfully requests the ability to flare casinghead gas. This well is connected to a sales line and the casinghead gas produced from this well will be sold. We have maximized beneficial use of produced gas on this lease. In order for the well to continue to produce oil, the gas must be occasionally flared due to pipeline capacity constraints. The higher market price of oil compared to gas is our justifiable economic reason to continue producing oil when produced gas cannot be transported and/or sold.
