COMMENCE DRILLING OPNS. ☐ P AND A ☐
CASING/CEMENT JOB ☐

OTHER: ☐

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Texland Petroleum has received authority to inject into the Drinkard formation in the Knowles Garrett #2 wellbore. Existing perforations are 8212-8362' and the injection permit was approved for the interval 8145-8748'. At this time, Texland does not propose adding any additional perforations and will therefore only use the existing perforations for injection. The rods, pump and production tubing will be removed from the wellbore and the injection packer with plastic lined tubing will be installed.

This request is to follow the approved Waterflood Unit Agreement dated 6/10/2020; Case #21130, Order #R-21348
