TROUBLE CALL: We set the plug above the Dakota and attempted to pressure test (no good). Josh picked up a testing packer and verified the plug is holding. They then tested and verified the casing from the bottom of the Mesaverde to the plug was good. The casing is not holding across the Mesaverde. They came up below the Fruitland top and tested to surface and casing is good. Per your agreement, we will rig down and move while filing NOI for P&A and the 90 days does not apply. BLM & OCD approved plan to move to P&A.

WELL WILL MOVE TO P&A.

CURRENTLY AWAITING ONSITE TO FILE W/NOI.
