Good afternoon Shaw,

I did get out there and conduct the P&A release inspection last month which is why it shows approved. Due to the form being built into the design of the submittal, the C-103 that had been attached was not needed and removed. No further action should be needed on DJR's end, the data entry/processing should be in the works. At this moment I am not sure if they have the system generate the C-103 like form that would normally show on top of these, or if that is still in the works. I think I might have downloaded the C-103 you had attached prior to purging it from the submittal after discussing the approval with Amy, so if that changes I think we have a copy to re-attach.

I have CC'd Amy to bring her into the loop for processing.

Hi,

On this one, I submitted the Subsequent Release after P&A and it shows Approved, but in the well file images, the C-103 Form is missing from the attachments. This site is ready for final inspection.

Do you want me to submit another C-103 Sub. Release After P&A (C-103Q)?

Thank you

Good morning,

The following wells have exceeded the 1 year requirement for releasing Plug and Abandonment locations as required by [19.15.25.10](#) NMAC. Please have personnel verify that all information on the P&A marker meets the requirements of 19.15.25.10.B NMAC and that all debris have been removed from location prior to filing the P&A release document through OCD Permitting within the next 30 days. Please email me the Action IDs for the submissions once completed to help expedite processing.
