Notice of Intent

Sundry ID: 2701730

Type of Submission: Notice of Intent

Type of Action: Reclamation

Date Sundry Submitted: 11/08/2022

Time Sundry Submitted: 11:57

Date proposed operation will begin: 11/08/2022

Procedure Description: Epic Energy, LLC requesting a change to the sampling regime prescribed in the COA's approved reclamation plan to the the new proposed sampling plan as follows: • Around the wellhead: excavate a 10 ft by ~1ft (to the level of the concrete at the base of the well marker) radius around the wellhead. If no further staining is observed, take a 5 point composite sample of the excavated surface at regular intervals around the wellhead and analyze for the full suite of contaminants described in UMU's clean-up standards. If further staining is observed, continue to excavate until all stained material is removed and follow the same sampling regime. • Tank battery: excavate the full footprint of the previous tank battery to a depth of 24 inches, then take a 10 point composite sample of the excavated surface (grab samples that make up the composite should be a representative of the entire battery's footprint) and analyze for the full suite of contaminants described in UMU's clean-up standards. If further staining is observed, continue to excavate until all stained material is removed and follow the same sampling regime. • There were a few areas identified throughout the pad that had observably stained soil. Excavate these areas until stained material is no longer observed. Epic Energy, LLC requesting a 30 day extension of final reclamation earthwork and seeding since the deadline prescribed in the approved plan is quickly approaching (11/30/2022). This is due to the new proposed sampling plan that was discussed during the on- site visit on November 7, 2022 with Scott Clow, David Retherford, Michael Dean, Stephanie Tsosie and Laura Hartman.

CONDITIONS OF APPROVAL

Well Name: UMT 22-D

Lease No.: 751051025

Location: Sec. 22, T. 31 N., R. 14 W.

Operator: Epic Energy LLC

Application: Sundry Notice with final reclamation plan amendment

Application Received by BLM: November 8, 2022

The Sundry Notice is approved subject to the following conditions of approval:

1. All contaminated material is disposed of properly.
2. A waste manifest showing appropriate contaminated soil disposal is provided to UMU and BLM via Sundry Notice Subsequent Report.
3. All soil sample reports are submitted via Sundry Notice Subsequent Report
4. An overview map is submitted with each soil sample report showing where each aliquot of the composite sample was collected.
