BTA is requesting an exemption from the tubing requirements in 19.15.16.10.J(3) NMAC.

BTA respectfully requests the ability modify our procedure to set the first packer run higher, and subsequently returning to the wells and setting packers deeper once flow rates and pressures have subsided (albeit still more than 250ft). This will give BTA a safer and more reliable operation.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
