loren.diede	NMOCD does not consider this well to be within the LPCH restricted area and an above ground P&A marker is required. NMOCD requires that plug(s) be added to cover the 7 Rivers = (970') and Yates = (560') formation tops. Submit photo and GPS coordinates of the P&A marker with the final P&A reports. The API# on the marker is to be clearly legible. Run CBL from CIBP to surface. Submit the CBL tif file to NMOCD for uploading into the Well Log File.	11/13/2025
