**Pre Enforcement Notification**

Dear Operator:

The following inspection indicates that the well, equipment, location or operational status of the well failed to meet standards of the New Mexico Oil Conservation Division as described in the detail section below. To comply with standards imposed by Rules and Regulations of the Division, corrective action must be taken immediately and the situation brought into compliance. The detail section indicates preliminary findings and/or probable nature of the violation. This determination is based on an inspection of your well or facility by an inspector employed by the Oil Conservation Division on the date indicated.

Please notify the Compliance Officer copied on this letter, in writing, of the date corrective actions are scheduled to be made so that arrangements can be made to reinspect the well and/or facility.

*INSPECTION DETAIL SECTION*

[30-005-64358] LINLEY STATE SWD #001

OGRID: 328565

M-32-15S-29E 201 FSL 999 FWL

Inspection Date	Type Inspection	Inspector	Inspection No.
2/23/2026	Routine Inspection	[DA] David Alvarado	iDA265431406
Violation	Title		Corrective Action Due
cDA265456499	19.15.29	Releases Surface Leaks/Spills <i>(Tank hatch lid not closed)</i>	5/24/2026
cDA265456500	19.15.26	Injection Pressure exceeds permit pressure <i>(Administrative Order SWD 2381 not to exceed tbg psi of 750# PSI Tbg. PSI @ 1550# PSI Well needs to be shut in until regulation PSI is achieved. Or SRT has been approved )</i>	5/24/2026

In the event that a satisfactory response is not received to this letter of direction by the "Corrective Action Due By:" date shown above, further enforcement will occur. Such enforcement may include this office applying to the Division for an order summoning you to a hearing before a Division Examiner in Santa Fe to show cause why you should not be ordered to permanently plug and abandon this well.
