Subject: RE: Cottonwood Canyon Wells Status

Ed,

As discussed this morning the list of wells that need to be updated to TA status is as follows;

✓ CC3	30-003-20026
✓ CC4	30-003-20019
✓ CC5	30-003-20025
✓ CC8	20034
✓ CC9	20037
✓ CC10	20038
✓ CC11	20039
✓ CC12	20040
✓ CC6x	30-003-20033
✓ CC7x	20036
✓ CC14x	20042

✓ CC14 30-003-20041

TA STATUS APPROVED UNTIL
9/30/2015. ALL AWAITING PIPELINE
NO PRESSURE ON ANY WELL.

While we are still evaluating our development strategy for Cottonwood Canyon, we do not intend to keep any of these wells as producers. Our current plans are to plug them in our 2015-2016 plugging campaign, which will include wells within the St Johns unit as well.

Subject: RE: Cottonwood Canyon Wells Status

Attached is a list of wells that we show for the Cottonwood Canyon Unit. There is no #13.

Status Codes:

- P = Plugged and Abandoned
- T = Temporarily Abandoned
- A = Active
- N = New drill
- E = Expired Temp. Abandoned Status

We need to do something with all of the wells in yellow. Based on the communication from Corrie Hartman, numbers 2, 11, 12, and 14X will be plugged and abandoned. Not sure what #13 is. What about the rest? "Shut-In" is not an acceptable status for our system. Shut in wells need to be on an approved Temporary Abandonment program.

I show the #2 well plugged under Ridgeway. Plugged wells and cancelled APD's remain in the name of the operator at that time in our system.

Perhaps we need to talk.

Ed,

Below is a response from our Subsurface Manager, Corrie Hartman as you can see we plan on a P&A program in 2015...

Subject: Cottonwood Canyon Wells Status

Hi Tom,

The most recent well list that I have shows the following CWC wells and their status (excluding wells that have already been P&A'd):

CC#2 TA
CC#13 TA
CC#11 SI
CC#12 SI
CC#14x SI

While we are still evaluating our development strategy for Cottonwood Canyon, we do not intend to keep any of these wells as producers. Our current plans are to plug them in our 2015-2016 plugging campaign, which will include wells within the St Johns unit as well.

Let me know if you need anything else to address this audit item.
