Dear Sir or Madam:

Reference is made to Communitization Agreement (CA) NMNM-122108 approved on February 13, 2009 and made effective February 13, 2009. The agreement communitized 119.82 acres of Federal minerals in lease NMSF-078316E, 79.23 acres in lease NMSF-078316F and 120.00 acres of Fee minerals described as S/2 of Section 32, T. 31 N., R. 9 W., NMPM, San Juan County, New Mexico as to natural gas and associated liquid hydrocarbons producible from the Fruitland Coal formation. The term of the agreement was for two years and so long thereafter as communitized substances are, or can be produced in paying quantities.

Our records indicate the well dedicated to the above-described communitized spacing unit was the Walker Com LS #2A. The referenced CA terminated on its own terms effective February 12, 2011. The public interest requirements for an approved communitization agreement were not met and are now invalid *ab initio* under section 3105.2-3.

The Riddle C #5 holds lease NMSF-078316E by actual production and Walker #2 holds lease NMSF-078316F by actual production.
