New Mexico Oil Conservation Division Attn: Michael E. Stogner 1220 South St. Francis Dr. Santa Fe, New Mexico 87505

RE: Administrative Approval of Unorthodox Location McCroden A #5 2157' FSL & 1900' FEL Section 8, T25N, R3W Rio Arriba County, New Mexico API # 30-039-23245

Dear Mr. Stogner:

Energen Resources Corporation (Energen) hereby requests Administrative Approval for an Unorthodox Location of its proposed McCroden A #5 Mesaverde well under the provisions of New Mexico Oil Conservation Division (NMOCD) Order R-6497-A.

The well is located 2157' FSL & 1900' FEL of Section 8-T25N-R3W, Rio Arriba County, New Mexico and dedicated to a 160 acre gas spacing unit (R-6497A) consisting of the SE/4 of said section 8, in the Blanco Mesaverde gas pool.

This well is closer than 660 feet to the northern boundary of the proration unit, causing a non-standard location. The well was originally completed as a West Lindrith Gallup-Dakota well in September 1983. In order to prevent waste and protect correlative rights, we are proposing to use this well bore to complete the Mesaverde.

A copy of this application is being sent to all offset operators by certified mail-return receipt request with a request that they furnish your office in Santa Fe a Waiver of Objection within 20 days of receipt of this application.

Attached is a well location plat showing dedicated acreage (C-102) and a map showing all offsetting operators.

Your favorable consideration of this request would be appreciated.

minard

Richard P. Corcoran District Landman

RE: Administrative Approval of Unorthodox Location McCroden A #5 2157' FSL & 1900' FEL Section 8-T25N-R3W Rio Arriba County, New Mexico

Dear Interest Owner:

Energen Resources Corporation has filed with the New Mexico Oil Conservation Division (NMOCD), an application for the Administrative Approval of an Unorthodox Location for its McCroden A #5 well. A copy of the application has been attached for your review.

If you have no objection to this unorthodox location, please sign the three copies of the attached waiver, return one executed copy to the NMOCD at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505, one copy to our office and retain one copy for you files, within 20 days of the receipt of this letter.

You cooperation in this matter is appreciated.

Sincerely

Richard P. Corcoran District Landman

New Mexico Oil Conservation Division Attn: Michael E. Stogner 1220 South St. Francis Dr. Santa Fe, New Mexico 87505

RE: Administrative Approval of Unorthodox Location McCroden A #5 2157' FSL & 1900' FEL Section 8, T25N, R3W Rio Arriba County, New Mexico API # 30-039-23245

Dear Mr. Stogner:

Energen Resources Corporation (Energen) hereby requests Administrative Approval for an Unorthodox Location of its proposed McCroden A #5 Mesaverde well under the provisions of New Mexico Oil Conservation Division (NMOCD) Order R-6497-A.

The well is located 2157' FSL & 1900' FEL of Section 8-T25N-R3W, Rio Arriba County, New Mexico and dedicated to a 160 acre gas spacing unit (R-6497A) consisting of the SE/4 of said section 8, in the Blanco Mesaverde gas pool.

This well is closer than 660 feet to the northern boundary of the proration unit, causing a non-standard location. The well was originally completed as a West Lindrith Gallup-Dakota well in September 1983. In order to prevent waste and protect correlative rights, we are proposing to use this well bore to complete the Mesaverde.

A copy of this application is being sent to all offset operators by certified mail-return receipt request with a request that they furnish your office in Santa Fe a Waiver of Objection within 20 days of receipt of this application.

Attached is a well location plat showing dedicated acreage (C-102) and a map showing all offsetting operators.

Your favorable consideration of this request would be appreciated.
