Re: Surface Commingling Application
Cottonwood Ranch "MK" State Nos. 1, 5
Section 36, T-6 South, R-25 East, NMPM,
Chaves County, New Mexico

Dear Ms. Reyes:

I have reviewed your recent application to surface commingle Pecos Slope-Abo and Cottonwood Ranch-Penn Pool production from the above-described wells. I have several questions concerning your application:

- (a) Is the Cottonwood Ranch "MK" State Well No. 1 dually completed in the Pecos Slope-Abo and Cottonwood Ranch-Penn Pools, or is the well downhole commingled in these pools?
- (b) How is the production from the Cottonwood Ranch "MK" State Well No. 1 to be allocated between the Penn and Abo formations? How is the production between the Cottonwood Ranch "MK" State Wells No. 1 and 5 to be allocated. (Please be advised that Division rules do not permit allocation between surface commingled wells based upon fixed percentages.)
- (c) Please identify the leases/and or proration units for each of the wells and pools.

Please submit the required data, at which time your application will be processed.

Sincerely,

David Catanach
Engineer
