Re: Requested Information

Dear Will,

Enclosed please find the information we discussed regarding the surface commingle applications in Sections 21,22 and 23 T-30N-14W. Hopefully, I haven't forgotten anything. I have enclosed one package for each of the applications

On the Morton #1 & #2, I have copies of the C102s as well as an application checklist. I also have a letter from our landman stating that the interests are common in these two wells. Since the interests are common, and I already have downhole commingle approval, I wasn't sure what to check off for type of application. Since the interests are common, I did not include a C107B

On each of the other two packages I have enclosed C102s an administrative application checklist and a C107B (fill out to the best of my ability). The C103B states that for Pool and Lease Commingling, I need to fill out Sections A and E, Section A was filled out and the information requested in Section E was submitted with the original application.

Let me know if you need anything else and once again, thanks for your help.

Sincerely,

Hugo Cartaya  
Director - Rocky Mountains Operations
