Re: San Juan 29-7 Unit #192
820' FNL, 2035' FWL, Section 21, T29N, R7W, Rio Arriba County
API #30-039-27659

Dear Mr. Stogner:

Burlington Resources is applying for administrative approval on the above referenced unorthodox gas well location for the Blanco Pictured Cliffs. Burlington Resources desires to twin the requested non-standard location with the San Juan 29-7 Unit #130M well location located 845' FNL and 2055' FWL to avoid further surface damage, as well as using existing roads and pipelines. The San Juan 29-7 Unit #130M is a Blanco Mesaverde/Basin Dakota well which was previously approved by NSL-2078A.

Burlington Resources proposes to drill the San Juan 29-7 Unit #192 well to at a location located 820' FNL, 2035' FWL in Section 21, Township 29 North, Range 7 West and is encroaching upon the center section line (605') of Section 21. The attached APD lists the spacing unit for the Pictured Cliffs formation as the west half/northwest quarter of Section 21.

The following attachments are for your review:

- Approved application for Permit to Drill and C-102 at referenced location
- Offset operators / owners plat
- 9 Section plat
- Topographic map

A copy of this application is being submitted to all working interest owners listed on page two of this letter, by certified mail. Please let me know if you have any questions about this application.

Sincerely,

Joni Clark
Regulatory Specialist
