**BILL RICHARDSON**

Governor

**Joanna Prukop**

Cabinet Secretary

**Mark E. Fesmire, P.E.**

Director

Oil Conservation Division

June 14, 2004

Division Order No. IPI-235

Seely Oil Company  
815 West Tenth Street  
Fort Worth, Texas 76102

Attention: Mr. David L. Henderson

**RE:   *Injection Pressure Increase  
Central EK Queen Unit Well No. 1  
Lea County, New Mexico***

Dear Mr. Henderson:

Reference is made to your request received by the Division on May 24, 2004 to increase the surface injection pressure on the Central EK Queen Unit Well No. 1. This request is based on a step rate test conducted on the well on April 10, 2004. The results of the step rate test show that an increase in the surface injection pressure for this well is justified and will not result in the fracturing of the injection formation and confining strata.

You are therefore authorized to increase the surface injection pressure on the following well:

<b><i>WELL NAME &amp; NUMBER</i></b>	<b><i>MAXIMUM SURFACE INJECTION PRESSURE</i></b>
Central EK Queen Unit Well No. 1 API No. 30-025-02328 Unit D, Section 17, T-18 South, R-34 East, NMPM, Lea County, New Mexico	2100 PSIG

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected fluid is not being confined to the injection zone or is endangering any fresh water aquifers.
