ADMINISTRATIVE ORDER DHC-3310

Jicarilla Apache Energy Corporation
PO Box 710
Dulce, NM 87528

Attention: Charles Neeley

*JVA Well No. 2A
API No. 30-039-27408
Unit D, Section 28, Township 27 North, Range 2 West, NMPM,
Rio Arriba County, New Mexico
Undesignated Gavilan-Pictured Cliffs (Gas 77360), and
Blanco-Mesaverde (Prorated Gas 72319) Pools*

Dear Mr. Neeley:

Reference is made to your recent application for an exception to Rule 303.A. of the Division Rules and Regulations to permit the above-described well to commingle production from the subject pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion or otherwise required separation of the zones is hereby placed in abeyance.

In accordance with Division 303C.(1)(f), the production attributed to any commingled pool within the well shall not exceed the allowable applicable to that pool.

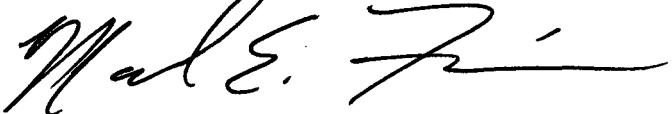

The applicant shall consult with the supervisor of the Aztec District Office of the Division upon completion and testing of the well in order to determine a fixed allocation of production from each of the commingled zones. Upon approval by the Division's Aztec District Office, the applicant shall submit the allocation formula in writing to the Santa Fe Office of the Division.

REMARKS: The operator shall notify the Aztec District Office of the Division upon implementation of commingling operations.

Pursuant to Rule 303C(2), the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on this 23rd day of July 2004.
