Re: Request for a Non-Standard Drilling Location,
NW/4 Section 14, T-20-S, R-28-E, Eddy County, New Mexico

Dear Mr. Stogner:

Enclosed are four copies of the State Form C-102, a structure map on the Yates marker, a well location and acreage dedication plat, a map of obstruction near our location and a locator map. This Non-Standard location is requested by E.G.L. Resources, Inc. for several reasons. First, a standard location, 2,310 FNL and 2,310 FWL, is directly under a powerline. A location slightly North and West is crowding an old well, the Carper 1-A, which had severe drilling problems at 400 feet and is a dry hole in the Yates formation. Second, locations due West are blocked by a compressor station and associated structures. Therefore, a Non-Standard location, 2,570 FNL and 2,425 FWL, is staked to avoid obstructions and increase the probability of a commercial Yates gas well.

As indicated on our structure map, the Yates dips steeply North and West of Non-Standard location. It is critically important to penetrate the Yates reservoirs above the + 2,425 foot contour to expect commercial gas production in the Russell lower Yates Gas reservoir. Therefore, E.G.L. Resources, Inc. is requesting a Non-Standard location to drill a 900 foot Yates well in the NW/4 of Section 14, T-20-S, R-28-E to avoid obstructions and increase the probability of making a commercial gas well.

Please let me know if there is anything else needed for processing this request. Your consideration in this matter is appreciated.

Very truly yours,

W. Wesley Perry
President

Re: Requested Waiver for a Non-Standard Drilling Location,
Section 14, T-20-S, R-28-E, Eddy County, New Mexico

Dear Mr. Wooley:

Enclosed is a complete copy of our State Form C-102 application indicating our proposed Non-Standard drilling location in the referenced Section. This location is requested by E.G.L. Resources, Inc. because of obstructions and a desire to position a well in a favorable structural position.

For Oxy's approval, I am enclosing a waiver of Oxy's opposition to E.G.L.'s Non-Standard location for a Yates test. Your consideration in this matter is appreciated.

Very truly yours,

W. Wesley Perry
