Dear Mr. Hendricks:

Reference is made to your recent application for an amendment to Administrative Order No. DHC-175, dated October 10, 1975, which authorized the downhole commingling of production from the Justis Blinebry and Justis Tubb Drinkard pools in the wellbore, to permit the addition of a third zone of production to be commingled in the wellbore.

It appearing that the subject well qualifies for approval for such amendment pursuant to the provisions at Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above.

The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 2000 by the top unit allowable for the Justis Paddock Pool.

Assignment of allowable to the well and allocation of production from the well shall be on the following basis.:

Blinebry Pool:	Oil	77%,	Gas	85%
