Subject: NSL's

After talking to Patsy it appears I haven't done too good a job managing these NSL's. I'm not as good at it as Ernie was.

The 29-5 #60M & #70M are OK for approval.

Please send me a list of those that you are waiting on a response from me. Thanks.

Mike

I tried to get to this location last week, the roads were slick and nasty and next to deep canyons. Me being chicken, I did not make it to location. We have concluded the interviews. I hope to get there in the next day or so.

Sorry its is taking so long

Have a great day

Charlie

Frank,

Could you up-date me as to your meeting with Phillips and the Forest Service concerning this well's NSL filing. They're calling me on these things.

Thanks.

The NSL for the Phillips 30-5 #265 will be OK.

Sorry for the delay.
