Attention: J. V. Gannon

Administrative Order No. DHC-216
New Mexico "O" State Well No. 14,
Unit J, Section 36, Township 17
South, Range 34 East, NMPM,
Lea County, New Mexico, North Vacuum-
Abo and Vacuum-Wolfcamp Pools

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Commission Rules and Regulations for the subject multiply completed well to permit the commingling of production from both pools in the well-bore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such down-hole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and Commission Order No. MC-1292, which authorized the multiple completion and required separation of the zones, is hereby placed in abeyance.

In accordance with the provisions of Rule 303-C, total commingled oil production from the subject well shall not exceed 80 barrels per day, and total water production from the well shall not exceed 160 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 2000 by top unit allowable for the Vacuum-Wolfcamp Pool.

Assignment of allowable to the well and allocation of production

-2-

DHC-216

from the well shall be on the following basis:

Upper Pool: Oil 64%, Gas 43%

Lower Pool: Oil 36%, Gas 57%

Pursuant to Rule 303-C 5, the commingling authority granted by this order may be rescinded by the Secretary-Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours,

JOE D. RAMEY
Secretary-Director
